

2024 Player Points table

Player Points Table applies to New Recruits.

A New Recruit is defined as “a player transferring to a new Participating Team for whom they have not played for during the previous season.”

Each Premier League Club will be allocated total points of up to and including a maximum of 13 points for each Season. This will be based on the position of the Premier Division team at the end of the Finals Series of the preceding Season.

<u>Ladder</u>	<u>Points</u>	<u>Club</u>
1 st position	8	Contax
2 nd position	8	Matrics
3 rd position	9	South Adelaide
4 th position	9	Garville
5 th position	11	Oakdale
6 th position	11	Tango
7 th position	13	Newton Jaguars
8 th position	13	Metro Jets

New recruits will attract the highest allocation of Player Points applicable.

For example, where a New Recruit, Player A, has played 48 Reserves Division matches (point allocation of one (1) point) and also played 52 Premier Division matches (point allocation of three (3) points); the points allocation for Player A as a New Recruit is three (3) points.

All New Recruits will carry points on a sliding scale over 3 years which will be reduced based on club loyalty. Should a player move clubs at any time, they will revert to the highest allocation of points for her playing experience, i.e., New Recruit status.

Scenario 1:

Player A, from Club Y, who carries 3 points, is recruited by Club X in 2023.

In 2024, if Player A stays with Club X, she is worth 2 points.

In 2025, if Player A stays with Club X, she is worth 1 point.

In 2026 (and beyond), if Player A stays with Club X, she is worth 0 points.

If Player A leaves the Club at any time, she reverts to carrying the highest allocation of points for her playing experience.

Therefore, if Club X finished the 2022 season in 5th position and has 11 Player Points (as above) for the 2023 recruitment season, Player A's recruitment points would be deducted from their tally meaning they now have 9 points to continue recruiting with.
